# Seamlessly Connect CDK with Enrich

Enrich Software is proud to announce our **CDK integration through the Fortellis Marketplace**, designed to automatically connect CDK with Enrich for a smoother, smarter workflow.

- Eliminate manual entry.
- Remove duplicate processes.
- Gain real-time visibility across your operations.

## What This Integration Delivers

### **Automated Repair Order & Parts Invoice Sync**

Repair orders and parts invoices flow directly from CDK into Enrich. Service and parts data are captured in real time, ensuring accurate tracking, reporting, and visibility without manual intervention.

### **Save Time. Reduce Errors. Increase Efficiency.**

By eliminating redundant data entry and manual reconciliation, your team can focus on higher-value tasks while improving data accuracy and operational control.

Powered through the secure Fortellis Marketplace ecosystem, this integration streamlines dealership workflows and delivers up-to-date operational insights directly within Enrich.

## **Connect. Sync. Grow.**

When CDK and Enrich work together, your dealership operates with greater speed, accuracy, and control.
